

Final Project Completion Report

Project Name and Number: **Bingham Creek Cathodic Protection System, #3984**

Description: Installation of a new rectifier along the 10200 S. 24-inch pipeline at Bingham Creek.

Engineer:	Infinity Corrosion Group	Design Status: 100%
Original Engineering Contract Amount:		\$24,000
Current Engineering Contract Amount:		\$24,000

Contractor:	VanCon, Inc.	Construction Status: 100%
Original construction contract amount:		\$97,400
Total Change Order amount:		\$0
Current construction contract amount:		\$97,400
Total change orders as a percentage of original contract:		0.0%

Final Project Completion Report

Drilling anode well

Setting anodes in anode well
